

## Environmental Value Systems of Two Societies

7.1.5 Compare and contrast the environmental value systems of two named societies.

	First Nation Native Americans	European Pioneers
CONTRAST	<ul style="list-style-type: none"> <li>• Environment is communal</li> <li>• Subsistence economy based on barter.</li> <li>• Low-impact tech</li> <li>• All things have souls</li> <li>• Natural objects have a</li> </ul>	<ul style="list-style-type: none"> <li>• exploitation of seemingly unlimited Resources.</li> <li>• Overpopulation → over exploitation</li> <li>• Heavy + tech advanced industry</li> <li>• Unchecked use of Resources</li> </ul>
COMPARE		

	Buddhists	Judaeo-Christians
CONTRAST	<ul style="list-style-type: none"> <li>• Humans are an intrinsic part of nature</li> <li>• Interrelationships w/all other parts of nature.</li> <li>• Humans not isolated from other parts of nature.</li> <li>• Reincarnation - humans can come back as other things</li> </ul>	<ul style="list-style-type: none"> <li>• Humans are Stewards of the environment.</li> <li>• Humans make the most of the enviro.</li> </ul>
COMPARE		

	Communists	Capitalists
CONTRAST	Resources should be equally distributed → no real thought about maintaining that Resource.	Some checks + balances to ensure smart use to maximize profits.
COMPARE	Really a mixed communism protected farmers forestes + fisherman	bag — capitalism promotes use of Resources → People buy a lot of stuff.
